Introduction to Fire Safety Awareness

Half day course • 9am to 12pm

Is your Workplace Safe?

This Introduction to Fire Safety Awareness is designed for those who want to increase their awareness of fire safety in the workplace.

You will learn basic fire safety principles in order to ensure that you can keep yourself and others safe at all times in the workplace. You will also learn what to do in the event of an emergency and the simple measures that can be taken to control the risk of fires.

With subjects covered in just half a day, this course is an ideal way to ensure that all employees have a good understanding of fire safety.

What's Covered?

- Causes of fires in the workplace
- The costs of fires in the workplace for employers, employees and society
- Basic fire safety duties and responsibilities
- Actions to be taken in the event of a fire
- Safe use of portable fire-fighting equipment
- Fire safety equipment checks
- Principles of fire risk control
- Key elements for effective fire risk management
- The fire triangle and controlling fire risks
- Fire risk control measures
- Fire prevention measures
